***Response to Arguments***

***Allowable Subject Matter***

4. Claims 1-3 and 5-11 are allowed.

The following is an examiner's statement of reasons for allowance:

5. As to claims 1 and 6, none of the prior art teaches or fairly suggests the limitation of "the at least one inspection item being selectable to be different for different of said shots", in combination with the other limitations of the claims. The prior art of Jacobson, already of record, discloses a shot number setting means, inspection setting means for setting at least one inspection item in association with individual ones of said shots (Fig. 4-1, element 46),

preliminary inspection means, collective estimation means and an output means. However, Jacobson does not teach or fairly suggest that the at least one inspection item being selectable to be different for different of said shots, as disclosed in claims 1 and 6.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
